The Bourbon Tobacco Warehouse Co. sold Wednesday 37,160 pounds for \$8,471.63, an average of \$22.78. COUNTY BOARD OF EDUCATION HOLDS MEETING.

The last meeting of the Bourbon County Board of Education under the term of office of Miss Mabel Robbins as County Superintendent of Schools was held Wednesday. Those present at the meeting were: Miss Mabel Robbins, County Superintendent of Schools, Messrs. D. C. Lisle, James Litter, F. F. Burriss, J. F. Ingels and Thos. Padgett, Secretary T. W. Current being unable to be present on account of illness.

Miss Robbins presented her financial report for the past year, which was received and accepted by the Board. Under a decision reached by the Board to extend the school session from seven months to nine months, the extra time will be paid out of the surplus in the treasury.

Miss Blakeley, of Jessamine county, was appointed as teacher for the Bethlehem school. Mrs. G. L. Rice was selected as trustee of the North Middletown school. The resignations of A. P. Adair, Letton Vimont, James Caldwell and Ben Woodford as school trustees were tendered to the Board and accepted. Secretary T. W. Current, and Messrs. Jas. Litter and F. F. Burriss also tendered their resignations. This left the Board without a quorum. Among other transactions at the meeting was a statement given out to be effect that a deficit of \$10,000 which existed in the treasury eight years ago had been changed to a surplus of \$7,000.

Miss Robbins retires from the office of Superintendent next Monday, after a term of eight years in which the office and its affairs were never in more capable and competent hands. The new Superintendent, Mr. J. W. Caywood, will assume the duties of the office on Monday.

A LARGE CAPACITY FOR BIG BUSINESS

Current Statement of Bourbon-Agricultural Bank & Trust Co. Shows Wonderful Growth

BIG SALES OF LIBERTY BONDS

On page four of this issue will be found the statement of the Bourbon-Agricultural Bank & Trust Company. This is the best statement that this Bank has ever made and it's deposits are \$100,000.00 more than they were at the same date a year ago, notwithstanding the fact that the customers of the Bourbon-Agricultural Bank & Trust Co. have subscribed and paid for through the bank \$285,000.00 of U. S. Government Liberty Bonds within the last six months.

The officials of this bank have been leaders in the movement to raise funds for the support of the Government and this splendid result shows the ability of this bank to handle large transactions and to take care of the interest of its customers.

The large capital \$200,000.00 with surplus of \$125,000.00 and undivided profits of \$14,455.12 gives the greatest protection to its depositors and enables the Bank to take care of its customers no matter what conditions may arise. The Bourbon-Agricultural Bank and Trust Co. has not only been successful in increasing its banking business, but within the last year has added very largely to its business as a Trust Company and many large estates have been entrusted to its care.

For the first time in the history of the banking business in Bourbon County, the Peoples Deposit Bank & Trust Company, of Paris, is the proud custodian of individual deposits in excess of One Million Dollars.

COMMENDS BOURBON COUNTY CANDIDATE FOR SPEAKER

The 1918 session of the Kentucky Legislature will convene at Frankfort on next Monday, January 7, for a sixty-days' term. Bourbon county will have two candidates for election to office in this General Assembly, Hon. Claude M. Thomas for Speaker of the House, and Lauthman Woods, son of Mrs. Jack Woods, of Paris, who seeks a pageship. Of Mr. Thomas' candidacy, The Mt. Sterling Advocate, under the heading of "Elect Thomas Speaker" says editorially:

"Hon. Claude M. Thomas, from our neighboring county of Bourbon, is a candidate for Speaker of the House, which will convene in regular session on next Monday.

"That such a man should aspire for such a place speaks well for the ever-growing sentiment in Kentucky, for better men and better things. Mr. Thomas is a gentleman by birth, a scholarly lawyer and one of the best parliamentarians in the State. That he will have no equal in the coming session of the legislature, in point of qualifications, few will seriously question. In public life he has always stood for clean politics, and both in private and public life has always been upright and honorable. Like all right-thinking men, he believes the liquor traffic is indefensible; yet the distilleries of the State, (although claiming the liquor question is settled, since all sides have agreed to a submission of State-wide prohibition), are making a most determined fight against Mr. Thomas and as always, have the active support of their faithful friend, Mr. Stanley. This very fact makes us feel that the question is by no means settled, as regards a submission of the question and that it behooves the temperance people of the State to be up and doing. Mr. Thomas ought to win the Speakership without a contest, and those who oppose him, prove conclusively, that they are not wanting a high-minded man of recognized fairness and splendid ability."

PARIS BOWLING LEAGUE CLOSES ACTIVE SEASON.

Although the bowling season at the Fordham Alleys practically closed with the games played at the end of the schedule, the boys could not resist the temptation to take just one more whack at the alleys. The Curtis Henry & Co. team took a fall out of their opponents, the R. P. Walsh team, taking two out of three games. The contest was for second money in the League series, which was awarded the Henry team.

The members of the team will have a farewell luncheon at the Fordham, Monday night. The affair had been planned for last Wednesday night, but was postponed because of the absence unavoidably of several members.

A PROSPEROUS INSTITUTION MAKES TREMENDOUS STRIDES

Deposits Increase \$149,413.50 In Less Than Two Years.

In another column appears the semi-annual statement of the Farmers & Traders Bank, which shows that financial institution to be one of the most popular banking houses in this section of the Bluegrass.

One of the features of this statement is the item of individual deposits of \$198,486.74. This is a very great source of gratification to the officials, as it shows the increasing popularity of their bank—it being less than two years old. The bank started February 10, 1916, with a deposit of \$49,073.24, and with this statement shows an increase in less than two years of \$159,413.50. The gross earnings for the past six months is \$6,731.30.

The above figures are remarkable for a bank with a capital of \$60,000.00, and not yet two years old. However, no business house could help but succeed when such men as are at the head of it. The officers are: Frank P. Kiser, President; S. L. Weathers, Vice-President; W. W. Mitchell, Cashier, and John W. Yerkes, Assistant Cashier.

The Directors, who are our most substantial farmers and business men, certainly used good judgment in the selection of its officers.

Read over the statement, which is given in detail on another page of to-day's NEWS (1t)

"FORTY DAYS' DRIVE."

The colored people of Paris and Bourbon county have on a "Forty Days' Drive" to raise \$900 to supplement the \$1,680 they gave last October. The management desires that the white people will encourage their help by explaining to them their duty, their need of it and just what they have there. They will raise the nine hundred dollars with a little encouragement from us by urging our help to register as one of the 900 persons who will give one dollar.

NEARLY 50,000 AUTOS LICENSED DURING 1917.

During the year of 1917 the Commissioner of Motor Vehicles, at Frankfort, issued 47,414 automobile licenses, 1,450 motorcycle licenses and 3,000 chauffeur licenses. The department collected \$190,000.

BETTER LOOK OUT! THE INCOME COLLECTOR COMING!

You won't have to figure out your own income tax all by yourself hereafter. The government is going to send out men to help you. It will be up to you to hunt up these men, who will be sent into every county seat town, and some other towns besides, to meet the people. The government's income tax man will be at the court house in Paris from January 14 to 26. He will answer your questions, swear you to the return, take your money, and remove the wrinkles from your brow. Returns of incomes for 1917 must be made between January 1 and March 1, 1918.

"The Government recognizes," Collector of Internal Revenue Haly said, "that many persons experience a good deal of difficulty in filling out income tax forms. It recognizes, too, that taxpayers resident at points where collectors' offices are not easily accessible find it hard to get proper instruction in the law. Next year, when every married person living with wife or husband and having a net income of \$2,000, and every unmarried person not the head of a family and having a net income of \$1,000 for the year 1917 must make return of income on the form prescribed, there will be hundreds in every community seeking light on the law, and help in executing their returns. My own and every other collection district in the Nation will be divided into districts, with the county as the unit, and a government officer informed in the income tax assigned to each district. He will spend hardly less than a week in each county, and in some counties a longer time, very likely in the court house at the county seat town. In cities where there are collectors' branch offices, he will be there, and in other cities possibly at the city hall. My office will in due time advise postmasters and bankers and send out notices to the newspapers stating when the officer will be in each county. It will be unnecessary for prospective taxpayers to ask my office for forms on which to make returns. The officer who visits their county will have them.

"It may be stated as a matter of general information that 'net income' is the remainder after subtracting expenses from gross income. Personal, family, or living expense is not expense in the meaning of the law, the exemption being allowed to cover such expenses. "The new exemption of \$1,000 and \$2,000 will add tens of thousands to the number of income taxpayers in this district, inasmuch as practically every farmer, merchant, tradesman, professional man and salary worker and a great many wage workers will be required to make return and pay tax. "The law makes it the duty of the taxpayer to seek out the collector. Many people assume that if an income tax form is not sent, or a government officer does not call, they are relieved from making report. This is decidedly in error. It is the other way round. The taxpayer has to go to the government and if he doesn't within the time prescribed, he is a violator of the law, and the government will go to him with its penalties."

"Mr. Robert Collier, of Paris, formerly of this city, has been chosen Assistant Cashier of the Mt. Sterling National Bank to succeed Mr. W. L. Kilpatrick, who has been promoted to the cashiership of this splendid institution. Mr. C. B. Patterson, Cashier for several years having resigned to take a position with the Chemical National Bank of New York City.

"Mr. Collier will assume his duties about the 15th of January. Mr. Collier was connected with the Monarch Milling Co., of this city, for several years, and is a competent, high-class gentleman and we welcome him back home again and congratulate the bank upon its splendid selection."

MILDRED MANNING IN "THE MARRIAGE SPECULATION."

Mildred Manning, popular and talented Vitagraph star, has few equals in versatility, playing emotional comedy or character parts with equal facility. She is a New York girl and at an early age succumbed to the lure of the stage.

Miss Manning gained a wide and varied experience, being in musical comedy, when an eminent photoplay director induced her to come to the silent drama. Joining Vitagraph, her advance was rapid and she was selected to co-star with Marc MacDermott in the Blue Ribbon Feature "Mary Jane's Pa." She takes a leading part with Wallace MacDonald in "The Marriage Speculation," the Greater Vitagraph Blue Ribbon Feature, which will be the attraction in the Alamo Theatre and Grand Opera House, Saturday, January 5th. She is the girl who leaves her country sweetheart and, for an education and introduction into society, agrees to marry a rich man who will take care of her benefactor.

Charles Kent, has the role of the benefactor, who when the time arrives, releases the girl of her obligation to him and gives her back to her sweetheart.

OVER ONE MILLION IN CASH DEPOSITS

Is Admirable Record Attained By Peoples Deposit Bank & Trust Company

A STEADY HEALTHY GROWTH

The statement of the Peoples Deposit Bank & Trust Company, at the close of business December 31, 1917, (see page four) shows individual deposits of \$1,015,847.64, a most remarkable showing, and reflects great credit on this old and reliable banking institution. The above named deposit is nearly double the amount of deposits of this bank as of July, 1914, after the Deposit Bank and the Peoples Bank were merged into the present strong financial institution. Since that time this bank has shown a growth in annual deposits of from \$100,000 to \$200,000, the amount steadily climbing until to-day the gratifying showing of \$1,015,847.64 in individual deposits is attained, a most enviable record.

The Peoples Deposit Bank & Trust Company is officered by some of Bourbon's most conservative and successful financiers, farmers and business men, and the remarkable growth of this institution is due to their conservatism and business foresight. The trust department of this bank is proving a most popular addition, and friends and customers of the Peoples Deposit Bank & Trust Company are availing themselves of the satisfactory service rendered in this department.

Elsewhere (on page four) in this issue of THE BOURBON NEWS will be found the condensed statement of the Peoples Deposit Bank & Trust Company, at the close of business on Dec. 31, 1917. It is a most interesting table of facts and should be carefully read by every business man in the county.

Following will be found a list of the officers and directors of the Peoples Deposit Bank & Trust Company, all tried and successful business men, and a perusal of their names can but inspire absolute confidence in the financial institution with which they are connected, and which has shown such wonderful growth the past few years:

President—S. E. Bedford.
Vice President—G. W. Wilder.
Cashier—C. K. Thomas.
Bookkeepers—Geo. Doyle, W. T. Bryan and W. S. Armsparger.

PARIS MAN TO BE WITH MT. STERLING BANK.

Mr. Robert Collier, of Paris, a member of the Bourbon Lumber Co., and brother of Messrs. Peale Collier, of the same company, and Mr. R. Frank Collier, of Paris, has been selected as Assistant Cashier of the Mt. Sterling National Bank. A better selection could not have been made: The Mt. Sterling Advocate says:

"Mr. Robert Collier, of Paris, formerly of this city, has been chosen Assistant Cashier of the Mt. Sterling National Bank to succeed Mr. W. L. Kilpatrick, who has been promoted to the cashiership of this splendid institution. Mr. C. B. Patterson, Cashier for several years having resigned to take a position with the Chemical National Bank of New York City.

"Mr. Collier will assume his duties about the 15th of January. Mr. Collier was connected with the Monarch Milling Co., of this city, for several years, and is a competent, high-class gentleman and we welcome him back home again and congratulate the bank upon its splendid selection."

REAL ESTATE DEALS.

Mrs. E. B. Hedges has leased her frame cottage on Stoner avenue to Mr. J. W. Day, of Cynthia, who will move his family here. Mr. Day will open an automobile sales room here soon.

Mr. James H. Haggard purchased of Mr. and Mrs. George W. Ellis, of Paris, their suburban home located on the Clintonville pike, containing ten acres of land, for \$6,500. The purchaser will be given possession April 1, 1918. Mr. and Mrs. Ellis will move to Paris to reside. Mr. Haggard recently purchased the I. D. Thompson farm, on the Clintonville pike.

THE GIRLS' ORPHANAGE AT ONEIDA BURNED.

The little girls' orphanage of Oneida Institute, the famous school founded by "Burns of the Mountains," at Oneida, Ky., was partially wrecked by fire Wednesday afternoon, necessitating the removal of the Institute to Anderson Hall.

The fire caught between the floor and ceiling of one of the rooms on the second floor and much difficulty was experienced in bringing it under control.

Our New Year Resolves.

In view of the fact that it is customary for everyone to make a set of resolutions for the coming year, which, of course, will be followed out or adhered to with more or less fidelity to purpose, THE NEWS has decided to adopt the following schedule, in the hope of being able to stick to it during 1918:

- 1.—To keep sweet.
- 2.—To boom business for Paris and THE NEWS.
- 3.—To stand by our guns and help the people of Paris to do anything that will be for the good of Paris and our people.
- 4.—To tell only half we know and trust to luck for the rest.
- 5.—To ventilate evils even if we get licked twice a day for it.
- 6.—To work for our town, our people and our country.
- 7.—To be moderate in common things and hasty in but few.
- 8.—To lose no opportunity of improving the local news service of THE NEWS as long as we can secure the co-operation of our people.
- 9.—To work every day—since we see no way out of doing so.
- 10.—To be on time and give you the newest paper in Paris. We have never missed an issue in thirty-six years, and don't propose to do so now.
- 11.—To meddle with no one and to tell you all the news that we can get hold of in a legitimate way.
- 12.—To give the business men of Paris and Bourbon county the best advertising medium in the city or county. We've already taken a long step in that direction.
- 13.—To make everyone that takes THE NEWS so deuced glad of a good thing that they'll recommend it to their neighbors and send it to their friends, here, there and elsewhere.
- 14.—To come to you first, to tell you the most and please you the best, or in other words, first for news, best for home and good for all.

37,500 NURSES NEEDED FOR COMING U. S. ARMY.

Estimates based on an army of 1,500,000 men are that 37,500 nurses will be needed in the army nurse corps. This means an enrollment increase of nearly 1,000 per cent. over the present membership of 3,800. To get enrollments some of the requirements are being waived.
Women nurses are to be employed on United States hospital ships for the first time in history. The Comfort, formerly the Ward liner Havana, and the Mercury, formerly the Saratoga, will soon be ready for such service.

WANT BETTER GAS SERVICE.

The people of Paris, in common with the people of other Central Kentucky cities, have been complaining of the shortage of gas during the cold spells that have been afflicting this section. The pressure has been fairly good in Paris for the past few days, but might be better.

The Mt. Sterling Gazette has the following in its last issue regarding the situation, which seems to be worse in other places than in Paris:

"With a view of making some permanent arrangements, or taking some definite steps against the Central Kentucky Natural Gas Company which furnishes fuel to Winchester, Mt. Sterling, Frankfort, Paris and Lexington, a meeting of the attorneys of these cities will be held at Frankfort in the near future. Mr. R. A. Chiles, City Attorney of Mt. Sterling, is responsible for the action. 'It has been my observation that for the last four or five years on a very cold spell there is a shortage of gas and an over-amount of air pressure, for which the public has to pay,' he says. 'There are also profuse apologies by the Central Kentucky Natural Gas Company and that is as far as it goes. There is never any reduction or deduction in the bills, and it seems that we have to pay for cold air, just as well as 'hot air.'

"The meeting of the attorneys will probably result in some permanent relief, not only during this winter, but in winters to come."

TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer in Paris.

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Paris woman tell of her experience.

Mrs. A. L. Burley, 329 Eighth Street, says: "I have used Doan's Kidney Pills, getting them from the Ardery Drug Co. and from the benefit I received, I certainly think they are a good, reliable remedy. Whenever my kidneys have acted irregularly or my back has been weak and lame, I have used a box or so of Doan's Kidney Pills. They have always relieved me of the complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Manufacturers, Buffalo, N. Y. (adv)

THE CHICAGO BOARD OF TRADE STOPS TRADING IN CORN.

All trading in corn or trading in store by grade alone in Chicago in the month of December was ordered stopped by the Board of Directors of the Board of Trade. A committee was named to fix a price at which existing contracts will be settled. It was explained that the action of the Board was merely to clear up existing contracts, as trading in December corn virtually ceased sixty days ago.

TWENTY SHOW HORSES BRING \$22,365 FOR RED CROSS.

Twenty show horses from James Cox Brady's stable were auctioned off at New York for the benefit of the Red Cross for an aggregate of \$22,365, of which \$18,150 was paid for eight hackneys. Fifteen of the animals were prize winners and the highest price was paid for the imported English hackneys King Pircon and Hamilton Regal, purchased by John R. Thompson, of Chicago, for \$13,100.

THE AUTOMOBILE VERSUS THE MOTOR BOAT.

"Owning both an auto and a motor boat," says a writer in the January issue of Motor Boating, "there is no question in my mind that I derive more pleasure from the boat than from the auto."

"In the first place the auto is limited to six or seven guests, while you can give pleasure to double this number with the average motor boat, and the old saying is 'The more—the merrier.'"

The auto is confined to narrow, dusty and frequently very rough roads upon which the driver must keep his eyes lest the machine be wrecked. On the motor boat there is so little restriction that the steersman may enjoy the outing as much as the passengers or guests, as there is always some one along who is able to steer and give the owner relief. On the auto in most cases the owner does all the work and gets the least pleasure.

We do not know what has happened, but something appears to have suppressed Colonel Roosevelt.

PARIS TURNS UP WITH A DIALECT POET.

Did you know, gentle reader, that Paris (Ky.) bids fair to rival the fame of Georgia which gave Joel Chandler Harris to the world of dialect, or of Indiana, where the immortal Whitcomb Riley gave to the world those charming dialect poems that have made the world his debtor?

Their rival is a Paris citizen, Thomas Ahearn, soldier of fortune, traveler, former newspaper man and good all-round fellow, who served several years in the service of the United States as a soldier in the Philippines, and who was for several years in the newspaper business in Connecticut. In the course of his musings one dreamy night while on guard duty in the far-distant Philippines, Ahearn, thinking of good old times in his old Kentucky home, drafted the following dialect poem, which will appeal to every true-born Kentuckian and Southern sportsman, who knows from experience the pleasures of the chase. Ahearn has caught the true spirit of the times when the colored man pursued the 'possum and the coon, and has set them in a measure that has all the lilt of the South in it.

WORKING A FAKE CHARITY SCHEME OF IMPOSTERS.

Residents of Paris and Bourbon county are warned against extending charity to a bunch of professional beggars who are headed this way. Word to that effect was received here Saturday from Frankfort and from Georgetown, where these imposters have been working the farmer's wives especially.

According to the information received here the latest scheme employed by these people is to hitch up a disreputable-looking horse to a farm house, offer soap for sale, and when they get inside the house, to beg for everything in sight. One of the women who is working this scheme claims to come from Mt. Sterling or Winchester.

Upon being offered employment they decline, saying they are not strong enough to work, and are trying to make their way back home. They evade direct answers as to where their homes are. Charity organizations in other places have turned them down as imposters, and the warning is sent to Paris ahead of them, if they are not already here.

THRIFT STAMPS.

It is pointed out by the Treasury Department that Thrift Stamps are not made redeemable in cash for the reason that these stamps are simply intended as a convenient method for the small savers to accumulate enough to purchase War Savings Stamps, which bear interest and are redeemable in cash.

In addition, to provide for redemption for these Thrift Stamps would involve such an amount of detailed accounting and labor and expense as to impair the practicability of their use. In fact, they would be more trouble and expense to the Government possibly than they are worth.

It isn't necessary the army cook who sees to it that the raw recruit gets good and roasted.

NEW RULES FOR MILLERS.

Mr. B. M. Renick, of the Paris Milling Company, furnishes The Kentuckian-Citizen with the following reprint from Dec. 25 issue of Milling and Grain News, referring to the higher extraction flour:

"The Milling Division of the U. S. Food Administration issued radical changes and new regulations under date Dec. 18. Higher extraction flour, with prices for feed and new package differentials are the important features. The special rules follow:

"Rule 17: No licensee engaged in the business of milling flour and feed from wheat shall, after Dec. 25, 1917, use more than 264 pounds of 58 pounds per bushel or heavier clean wheat in making 196 pounds of 100 per cent flour. From the 100 per cent flour so produced the licensee may at his option remove and sell or deliver as a separate product not more than 5 per cent of clear or low grade flour; the remaining product representing 95 per cent or more of all the flour produced shall not be subject to further separation or division. None of the above flour so milled shall be mixed with or sold as feed. All contracts outstanding on Dec. 25, 1917, which cannot be performed by the delivery of flour then in stock, or for grades of flour which cannot thereafter be milled under this rule shall be canceled; provided, however, that the buyer may at his option secure the re-entry under the same terms and conditions of an amount equivalent to the unshipped portion of his order, at the new basis of price; provided, further, that the limit of exercising this option shall expire within ten days after this rule becomes effective.

"Rule 18: The licensee shall on and after Dec. 25, 1917, establish from time to time a price at which he will sell each grade of flour manufactured by him, in carload lots, for a period of twenty-four hours after such price is established, and, until a new price is established by the licensee, all flour sold shall be sold at such established price, excepting that, in making a price to meet competition of mills in various territories, the range of prices to different carload buyers or classes of carload buyers for direct shipment from mill, may not exceed twenty-five cents per barrel bulk at the mill. Each invoice shall show bulk price f. o. b. mill, and there shall appear thereon all proper charges incurred by the terms of sale.

"Rule 19: No licensee engaged in the business of milling flour and feed from wheat shall after Dec. 25, 1917, sell wheat mill feed at any price in excess of the following prices:

"Bran: Bulk price per ton of 2,000 pounds at mill in carloads in no case shall exceed 38 per cent of the average cost to such mill of one ton of wheat at the mill, which cost of wheat shall be the average cost as shown by the previous month's records of said mill and shall include the 1 per cent Administration Fee paid by the mill on all wheat ground."

Little Angel Present.

THIS KENTUCKY WOMAN OFFERS ALL THE FACTS

Tells How Tanlac Made Her Feel As Well As She Ever Did.

"I took eight bottles of Tanlac in all and I'm feeling as well now as I ever did in my life," said Mrs. Luther Martin, 509 Madison street, Louisville, Ky.

"For two years I was bothered with my stomach. Everything I ate caused gas to form on my stomach. At times I got so bloated that I felt like I was going to smother. I was getting thin and was almost a burden to myself.

"I was nervous, too, and didn't sleep very well at night. My rest was all broken up by bad dreams. Sometimes I felt so tired that I could hardly do my work.

"I read so much about Tanlac that finally I decided to try it. The first bottle helped me. It seemed to improve my digestion and I began to eat more. I kept on taking Tanlac, though, and took eight bottles in all."

You've got to "show" a Kentuckian. He doesn't "take up" with anything. Facts and proofs must be submitted. That's why Tanlac's remarkable sale in Kentucky is proof positive of Tanlac's real merit. If your system is run down, take Tanlac. You'll get rid of that half-sick feeling in just a little while. You'll get back your appetite, too, and feel better all over. You can get Tanlac at G. S. Varden & Son's. (adv)

STOP DANDRUFF AND BEAUTIFY YOUR HAIR

Hair Stops Falling Out and Gets Thick, Wavy, Strong and Beautiful.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents. (adv)

PLANS CHANGE FOR OFFICERS' TRAINING CAMPS.

A revision of plans for the third series of officers' training camps to be opened January 5, has led to the abandonment of the camps previously intended to be established at Fort Bliss and Fort Sam Houston, Tex. An additional camp will be started at Fort Oglethorpe, Ga., and selected men from the 30th, 31st, 33rd, 34th, 37th, 38th and 39th National Guard divisions will be assembled there. Otherwise the original RED CROSS MEMBERSHIP FOR division will be carried out.

Only enlisted men from the various branches of the army and selected graduates from schools and colleges with recognized military courses will attend these camps. No civilians will be accepted where a few injustices of the first two series of camps are to be corrected.

SELECTED AS NIGHT SUPT. AT
MASSIE HOSPITAL

The Board of Trustees of the Massie Memorial Hospital, upon the earnest and unqualified endorsement of a large number of physicians and others interested in the institution, have selected Mrs. Carrie F. Stone, of Paris, as Night Superintendent at the Hospital. The appointment meets with universal approval.

Mrs. Stone is an experienced and capable nurse, who began her professional career as a nurse at the Louisville City Hospital eleven years ago. She was one of the honor graduates of the Nurses' Training School at that institution and at the graduating exercises of the class, held in the Woman's Club, in Louisville, was presented with an especially engraved diploma and letter of recommendation as a mark of esteem from the Hospital authorities and the Board of Managers.

Mrs. Stone was for a time after leaving the Louisville Hospital in charge of the St. Bernard Hospital at Earlington, maintained by the St. Bernard Mining Company, one of the largest mining corporations in Kentucky. Later she was in succession Night Superintendent at the Jewish Hospital, in Louisville, a member of the staff at Norton Infirmary, Louisville; at the Jewish Hospital, and the Blakely Hospital, Cincinnati; and recently at the Baylor Hospital, in San Antonio, Texas.

Mrs. Stone's manifold qualifications fit her for the position and in making the selection the Hospital Board and the Hospital authorities have made a wise move, and a most commendable appointment.

B-4 FIRE
Insure with
W.O. HINTON & SON, AgtsFLAMES VISIT OCCUPANTS OF
"CONNELLY'S ALLEY."

The classic precinct of "Connelly's Alley," in the vicinity of Eighth street, was visited by a fire about eleven o'clock, Tuesday night, which caused the destruction of three frame cottages owned by Chas. J. Lancaster, and occupied by colored families.

The occupants lost all their household goods, as the rapid spread of the flames gave them little opportunity to save anything. The fire department confined the flames to the three houses destroyed, saving the surrounding property.

PARIS BANKS PROSPEROUS

That there is more money in the hands of the people of Bourbon county is evidenced by the statements of the four Paris banks, showing the condition of business at the closing hour on December 31, 1917.

These statements show an aggregate of \$2,695,657.28 on deposit in these banks, with about \$2,000,000 worth of tobacco in the county yet to be marketed, besides a half million dollars worth of hemp, Bourbon county appears to be pretty comfortably fixed, financially, in spite of wars, rumors of wars, zero weather and such things.

"THEM WERE THE DAYS!"

Editor James M. Allen, in the Cynthiana Democrat, comments on the item published in THE NEWS last Tuesday in regard to Toppie Nix and President Wilson's birthdays coming on the same day. James grows reminiscent, and adds the following, which is well-known history:

"We wonder, too, for 'Toppie' was the admiration of all the small boys of Paris forty years ago when he was the star pitcher of the Paris Mutuals, a base ball team that wore blue stockings and white suits. Being cross-eyed, he kept the batter guessing whether he was going to throw the ball over the plate or over the right field fence. The catcher didn't know either. And runners were afraid to take a lead off first

base because the pitcher could face the batter and keep his eye on them at the same time. Ah, them was the good old days! Woodrow may be a little a head of 'Toppie,' but we'll bet he hasn't had as much fun."

FOOD ADMINISTRATOR.

Mr. Wm. E. Simms, of Woodford county, formerly of Paris, has been appointed Food Administrator for the Lexington District. Mr. Simms will open an office in Lexington.

MEETING POSTPONED.

The business and social session of the Woman's Bible Class of the Paris Methodist church, which was scheduled for last night at the home of Mr. and Mrs. N. H. Ecklar, on Scott avenue, was postponed until the last Thursday in January.

The postponement was made necessary on account of the ladies being engaged in sewing for the Red Cross yesterday, the two meetings conflicting.

EXAMINATION FOR CLERK.

An examination for clerks with a knowledge of stenography and typewriting will be held at the Paris postoffice on January 18. This announcement is made by the officials of the local postoffice, where an examination will be held each month. The date of these examinations will be announced through the Paris papers later on.

Any information will be gladly furnished by any of the employees of the local postoffice. Mr. William Clarke is local Secretary of the Civil Service Commission, with headquarters at the Paris postoffice.

IN THE SERVICE.

Mr. Monroe Sweeney, son of Mrs. John S. Sweeney, of Paris, has enlisted in the Aviation Corps of the U. S. Army and has been assigned to duty at the Great Lakes Naval Training Station, near Chicago. Mr. Sweeney is visiting relatives in Chicago before going to the camp for duty.

Jerry M. Patrick, of Paris, and Bradley T. Parker and Wm. C. Jacoby, both of the Hutchison vicinity, in this county, were accepted Wednesday at the Lexington naval recruiting station as apprentice seamen. They will be sent to the Great Lakes Training Station, near Chicago.

BIG PURCHASE OF MULES.

A carload of mules, for which the purchaser, Mr. G. W. Jordan, of Hawesville, Georgia, paid from \$215 to \$240 per head, was disposed of here by the livestock firm of Caywood, Smith & McClintock. The mules were shipped to Mr. Jordan's stable at Hawesville.

Mr. Jordan stated to the members of the firm that it is getting hard to purchase big lots of mules in Central Kentucky now, and that these necessary farm animals are getting scarce, due probably to demands on the supply for army purposes. A large crop of cotton and corn will be planted in the South this spring, according to Mr. Jordan, and this will mean that the South will be a larger buyer of mules in this market if they can be obtained.

SOME WINTER WEATHER

Kentucky has doubtless seen bitter winter weather like the present spell, but THE NEWS has been unable to find any of the "oldest inhabitants" whose keen memory of dates and occurrences could recall it. Nothing like it can be recalled by very many of present generation.

Snow has succeeded snow until the very topmost crust of the North Pole seems to have slipped its moorings and landed plump in the land of bluegrass. Zero weather has become so common that the salutation "How is the thermometer this morning?" generally elicits the reply, "Oh, just normal—about ten below zero!"

Since last Sunday, when the mercury played the deuce in the deck to the extent of dropping to 19 degrees below zero, every day has witnessed zero weather, varying from three to eight below. Yesterday kept up the average, the temperature coddling in the bottom at about eight below.

As usual, the gas pressure was somewhat weak, though Paris has been a little bit more fortunate than some other cities in Central Kentucky, where complaints of an almost total lack of pressure were made.

It should be a great consolation to the Paris and Bourbon county people in Florida to know they are escaping the rigors and discomforts of one of the bitterest winters Kentucky has experienced in many years.

THE ARMY Y. M. C. A. CAMPAIGN

Kentucky has taken her place with the best States in the Nation in giving to the recent Army Y. M. C. A. Campaign. The nation-wide campaign for the support of the army Y. M. C. A. work was a record breaker in every respect and Kentucky kept pace with the Nation. Kentucky was asked to raise \$350,000 of the \$35,000,000 fund needed to run the Army and Navy Department of the Y. M. C. A. until July 1, 1918. This amount was increased by the State Conference to \$400,000 to enable the State and some local budgets to be included in one campaign and the total raised was \$519,469. The national total has reached \$53,000,000.

This is not only the largest amount ever raised in our State for a single Christian cause, but is the largest amount ever subscribed in a similar State-wide campaign for a philanthropic or patriotic cause. It is a great vote of confidence in the Army Y. M. C. A. work and thoroughly demonstrated the patriotic spirit of our people for the welfare and comfort of our soldiers.

An active simultaneous campaign was made in one hundred and five counties in Kentucky. Over 4,800 persons helped as volunteer workers in this great campaign and from every section comes reports of real joy for a share in this unselfish service.

The splendid results in this campaign was due to the scheme of organization, the district and local leadership and the enthusiasm of the local workers.

REAL ESTATE DEALS.

Eleven tracts of Bourbon county land are involved in deeds of transfer filed in the office of County Clerk Pearce Paton by Jonas Weil, of Bourbon and Fayette counties. The deeds are placed on record in order to settle up the partnership business recently existing between Jonas Weil and Simon Weil. The sum of \$30,000 also figures in the deal, in which Jonas Weil conveys to Simon Weil and wife, Alice Weil several tracts of land and the aforesaid sum of \$30,000. In consideration of this Mr. and Mrs. Simon Weil convey to Jonas Weil the following tracts of land:

One tract containing 508.95 acres of land in Bourbon and Fayette counties; 339.33 acres on the Elizabethtown pike; tract of sixty-three acres on the Frankfort & Cincinnati railroad; tract of 37.1 acres, conveyed by H. Clay Bedford; 52.04 acres on the Clintonville pike; tract of 21.46 acres adjoining; 40.90 acres on the Bethlehem pike; 311.67 acres on the same pike, known as the Higgins farm, and tract of 250.67 acres on Houston creek, known as the McClintock farm.

Mr. Fred Musselman has sold the big iron covered tobacco warehouse situated on Pleasant street, between Tenth and Eleventh streets, to Abner & Mussinon, who have had it leased for a number of years. The price paid was not given out for publication. The purchasers will continue their business in the warehouse, as heretofore.

PREDICTS GOVERNMENT CONTROL FOR COAL AND LABOR.

Government control of coal mines and conscription of labor were predicted by L. A. Snead, head of the Fuel Administration's distributing agency, in testimony before the Senate committee investigating the coal situation.

Coordination of effort is necessary to meet present demands, Mr. Snead said, and he added that he could see no possibility of the production of the 50,000,000 tons the Fuel Administration estimates the country is short this year. Restricted use is the only solution, he declared.

Priority orders for coal shipments might afford some temporary relief from shortage experienced in many parts of the country, Mr. Snead said, but the only solution of the whole problem is adequate and efficient transportation.

A nickel slot machine may be in perfect order, and yet it won't work for a cent.

YOU'RE BILIOUS! LET "CASCARETS" LIVE! LIVER AND BOWELS

Don't Stay Headachy, Constipated, Sick, With Breath Bad and Stomach Sour.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste, and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken. (adv)

LESSONS OF THE LIBERTY LOAN

Now that the second Liberty Loan is an accomplished fact, we can look back and estimate its significance, both spiritual and material, to the United States. Boersianer, the analysis of finance, writing in the January number of Hearst's Magazine, tells us that it is the largest subscription in the annals of finance, whether made by a government or a private firm. From the moral and the financial momentum accumulated, as well as from the almost inexhaustible resources of the country, he finds it only natural that the second appeal should have brought a larger response than the first; and he predicts that the same forces will be at work to make the response cumulative in whatever succeeding loans the government shall ask. This authority brings out with force and clearness the contrast between our own loans and those of Germany, which are paid, not in cash, but in promissory notes. The effects of the latter system on prices of commodities and the value of currency as such as to make us modify, to a very large extent, the apparent value of the German loans. The financial implications of the American response are most encouraging, though they might easily have been lost sight of by people in general, if it were not for such expert explanation as that given by Boersianer's article.

Catarrh of Throat

Miss Amalie Ruzicka, 1449 South 16th St., Omaha, Nebraska, writes: "I have suffered with catarrh of the throat. I caught cold and it settled in my throat, and I coughed badly and was very weak. I could not sleep and had no appetite. I had two doctors, and had taken so many different medicines and found no help. I thought I will have to give up; but at last my mother read about Peruna, so I thought of trying that great medicine Peruna. I got a bottle of it and in about four days I almost stopped coughing, and after a while I surely found relief, and from that time we are not without Peruna in our home."

RED CROSS MEMBERSHIP FOR 1918 GROWS TO 20,000,000.

The American Red Cross began the New Year with a membership of more than 20,000,000, it was announced at New York at the close of the National enrollment campaign. Every one of the thirteen national divisions exceeded the quota set for it by the Red Cross headquarters in Washington.

Actual new members added to the rolls of the organization were 14,853,535, and of this number the southwestern division contributed more than any other division, 3,250,000.

The leading division comprises the States of Missouri, Kansas, Oklahoma, Arkansas, Texas and parts of Kentucky and Tennessee.

RAILROAD MEN PREDICT GOVERNMENT CONTROL PERMANENT.

Definite steps toward National unification of railroads and improvement of congested conditions were taken Saturday by Director General McAdoo in the appointment of a temporary staff and the issuing of his first formal order directing absolute pooling of all traffic, common utilization of terminals, rolling stock and other facilities, hauling of freight by the shortest routes, and retention of all present officers and employees.

Alfred H. Smith, president of the New York Central, was named temporary special assistant to supervise transportation in the trunk line territory east of the Mississippi and north of the Ohio rivers, where congestion is greatest.

Walker D. Hines, of New York, a railroad lawyer and for many years a special student of government operation, was appointed assistant director general pending the formation of a permanent staff.

While the director general was conferring with a number of railroad heads, Interstate Commerce Commissioners and members of Congress, and planning immediate action to remedy faults of transportation, it became known that the demands of the railway brotherhoods for a 40 per cent. wage increase had been denied by the railroads and that consequently, the labor men had decided to postpone for probably sixty days the presentation of their case to the government. It was thought probable that President Wilson would take up the labor situation in his address to Congress next Thursday or Friday.

The railroad chiefs freely predict that the advantages of the great non-competitive system now being developed would soon become so apparent that the country never would revert to the old plan of private control. They even went so far as to predict very definitely that government ownership as well as control would be a development of only a few years.

GAS SHORTAGE MAY CAUSE APPEAL TO GOVERNMENT

The National Fuel Administration at Washington may be appealed to by Paris, Lexington and other Central Kentucky towns as a result of the inadequate supply furnished by the Central-Kentucky National Gas Company, unless better service is assured local consumers.

Under the existing contract that the local Gas Company has with the United Fuel Company of West Virginia, it is figured that the National Fuel Administration by exercising its authority could order proper equipment installed in the gas fields and an adequate distribution of the gas to those communities that depend upon it for light and heat.

It is pointed out that the National Fuel Administration recently contemplated having the natural gas from the West Virginia fields diverted to feed the munition plants in Pennsylvania, and that if this could be done, either by taking over the gas fields, or by supervising the distribution of gas, that an order of the National Fuel Administrator could relieve the shortage of gas in Central Kentucky and remove the cause of so much deprivation and suffering among the people of this State.

At any rate, it is believed here that this move should be resorted to at once, since the local Gas Company gives no assurance that its service will be improved in the future.

BONES OF MASTODON FOUND NEAR SOUTHERN CITY.

Throngs of curious persons gathered at the home of John Dennis, near Arkansas City, Ark., to inspect the two big teeth found in a sand pit near his home and said to be the teeth of a mastodon. A representative from the University of Arkansas at Conway is expected to reach there soon to view the teeth.

That a mastodon, a huge prehistoric animal, died in that vicinity is the general belief, and an exhaustive investigation will be made under the direction of the university.

LEVY OF FIFTY CENTS

An appeal is being made to the members of the Legislature by V. O. Gilbert, State Superintendent of Public Schools, to amend the school laws to permit a levy of fifty cents on the \$100 value of taxable property for school purposes.

He would have the law amended so as to make the school age in this State from six to twenty years, instead of six to eighteen. An eight months' term for the rural schools is advocated.

Gilbert would cut out all second-class teachers' certificates after 1920, and require elementary agriculture to be taught in the public schools after 1920.

The town of Rouffelaere (Roulers) in Belgium, was almost laid waste recently by the terrific explosion of an ammunition train caused by bombs dropped by a British airplane, according to the frontier correspondent of the Telegraaf. The airplane itself was brought down by the aerial pressure. Many Germans and a few Belgians, the latter engaged in force labor, were killed.

IMPRISONMENT FOR SLACKERS SEEKING DISCHARGE FROM ARMY.

Dishonorable discharges from the army, which officers believe have been seized upon by slackers and objectors as the vehicle of escape from military service, will no longer provide such an opportunity under an order issued by Secretary Baker.

For several weeks the army has been losing men at the rate of 100 to 150 a day. They chose to commit offenses which led to their dishonorable discharge.

In the future, Secretary Baker ordered, such men will get terms of imprisonment with their discharges, and whenever possible, some other form of sentence will be used.

NO MORE DRAFT CALLS DUE UNTIL FEBRUARY 15.

Provost Marshal General Crowder has notified State governors that there will be no more formal calls for deferred percentages of the present quota of National Army men who have been called, but whose order numbers are so low that they are not actually in camp, will get the benefit of the new classification.

Boards have been instructed, however, to continue sending men to make up deficiencies in the quota caused by rejection of men already in the service until they have enough men finally placed in the first class. They were notified also to expect very shortly calls for men skilled in special lines of work.

The Communication Army

A bird's-eye view of the country today would show a mighty panorama of military and industrial activities.

Radiating from the National Capitol and from the army and navy centers throughout the land would appear the thousands of telephone lines by which all these vast enterprises are directed and co-ordinated—a veritable maze of wires linking together the camps, yards, fortifications, plants and offices, and swarming with linemen, cablemen and installers, busy with Uncle Sam's existing and ever-increasing demands for telephone service.

All this is but a part of the vast work which the Bell system is doing, but among the unforeseen conditions which the war has imposed upon us is the necessity of practically suspending the commercial development of our business.

Confronted with an abnormal increase in the use of the telephone and an unprecedented demand for new and additional service, we cannot accept or fill orders except subject practically to an indefinite delay. This situation is due to the importance of conserving our supplies so that the government's requirements may be promptly met at any time a request is made.

At a time like this, we believe the public will appreciate a frank statement of the situation and will join us in our efforts to serve the government first and efficiently.

NOTED JAP ACTOR IN "THE CALL OF THE EAST."

The recent fad for things and dress Japanese, which swept the country and which is still inducing ultra-fashionable women to wear "pagoda hats" and carry elaborate Japanese bags, has been brought into play by clever Beulah Marie Dix, author of "The Call of the East," in which Sessue Hayakawa the famous Japanese actor will appear at the Alamo Theatre and Paris Grand on Monday, January 7.

Aside from the remarkable dramatic value of the production, there are included in it scenes of such true Oriental splendor, and costumes of such gorgeousness that the picture for its beauty alone would be an eminent production.

Demure Little Tsuru Aoki, wife of the star, appears in several of the heaviest embroidered silk kimonos and wears queer Japanese footgear. As to her hair dressing—it is beyond description and the piles and coils of glistening black hair that tower above the winsome face make one think only of so much smooth-cut jet. Margaret Loomis, who is the second "leading lady" for Mr. Hayakawa in this photoplay also wears elaborate Oriental costumes during part of the production.

FEED THE SOFT CORN.

Farmers in the frost-stricken district of the corn belt are urged by Joseph P. Cotton, head of the U. S. Food Administration Meat Division, at Chicago, to save the soft corn and feed it to livestock. Organization of farmers to equalize shipping receipts at the larger livestock markets is also recommended.

"The extent of the damage done to the great corn crop," said Mr. Cotton, "will make the market problem for soft corn an important one. In the judgment of the Meat Division the best way to market this corn will be in the form of meat. The world situation promises extraordinary opportunities to hog growers, and the Food Administration's price policy for the spring-farrowed crop of swine should be an added incentive."

"The government program for increased production and saving of the soft corn and feed it are in harmony, and every bushel of soft corn thus utilized is an aid to winning the war."

In line with the United States Food Administration's program of increasing the production of pork and as a means of utilizing the large quantities of soft corn in Ohio, N. E. Shaw, Secretary of the State Department of Agriculture and Dr. Theo. A. Burnett, Chief of the Bureau of Live Stock Industry, has announced a plan whereby feeder and stocker hogs can be shipped from Cincinnati stockyards to farmers in Ohio and Kentucky for feeding purposes.

Instead of permitting the slaughter of hogs at 100 pounds, this plan will enable farmers to put them on the market at 300 pounds. On account of the great amount of soft corn in the hands of farmers in Ohio there is a great demand for this size hog. This corn cannot be marketed.

Stockyard hogs are always more liable to infection from cholera, but the State has taken every precaution against the spread of cholera through the distribution of these hogs. A veterinary employed by the State Department will be stationed at the Cincinnati yards. All light hogs, leaving the yards to go out to the farmers will be treated with hog cholera serum and dipped in a disinfectant solution before being shipped.

Upon arrival at the farm to which they are being sent these hogs will be kept in quarantine for 30 days, being kept separate from all other hogs on the farm.

This plan is being worked out with good results at the Indianapolis, Chicago and Kansas City stockyards.

It isn't necessary the army cook who sees to it that the raw recruit gets good and roasted.
